A man went into a book store run by a Jew and asked:
"Have you a copy of 'Who's Who and What's What,' by J. K. Jerome?"
The Jew replied: "No, sir, but we got 'Who's He and What's He Got,' by Bradstreet."

AN UNFAIR TEST

Repetition of the words "British constitution" has been dropped by the Birmingham police as a test of persons suspected of having imbibed too freely. Instead, the suspects are requested to step lively along a chalked line, pick up a hat at one end and then bow four times to the captain in charge of the test.

DO YOU GET THIS?

"Do you know that you receive better attention from merchants who appreciate your patronage?" inquires an ad. We can't say as to that, but we must confess that we're getting a lot of attention right now from merchants who have enjoyed our patronage in the past, if you get what we mean. —Buffalo Express.

"How is your garden coming along?" "Why do you ask that question?" demanded the other half of the sketch. "Merely out of politeness." "Glad to hear it. I thought maybe I had promised you some early vegetables."

Southern Alberta farmers are going in for corn planting on a greater scale than ever this summer. Last year it was estimated that 67,000 acres were in corn. The total will probably reach 100,000 acres this year. Seed corn for 27 plots is being sent out from Lethbridge, and there is expected to be a splendid showing for the corn show which will be held in Lethbridge in November.

VULCAN, ALBERTA

LOCAL ITEMS

Mrs. H. Daines, of Vulcan, is visiting in High River the guest of her daughter, Mrs. A. Warner.

Mrs. Vanskiver will leave this week for Vancouver. She will be joined at Calgary by her brother, Mr. Henry Brown, on the trip to the coast. Mr. Brown recently visited in Vulcan.

Mr. and Mrs. James Leverington leave this week for Victoria, where they intend to remain for some time, the change being for the health of Mr. Leverington, and a host of friends will hope that every anticipation will be realized.

SHOULDICE—HILL

An interesting wedding took place at the Palliser Hotel, Calgary at 2:30 Friday, May 8th, when Miss Margaret Edna Hill, daughter of Mr. and Mrs. Wm. Hill of Long Beach, California, became the bride of Mr. Russell D. M. Shouldice, son of Mr. and Mrs. D. G. Shouldice of Timmins, Ontario, formerly of Carmangay, Alberta. The bride who was given away by her father, wore an ensemble suit of honeydew cotton and charmeuse with picture hat to match and carried a sheaf of orphelia roses and lilies of the valley. Two little nieces of the bride, Eleanor and Eileen Hill, acted as flower girls, while Marjorie Hill received the guests at the elevator. The three little attendants wore peach and colored frocks and bandeaus of silver leaves and carried baskets of flowers.

The groom's gift to the bride was a bar pin set with diamonds and sapphires, to the little attendants, pearl bar pins.

Following the wedding ceremony the bridal party and three immediate friends sat down to dinner, served in a private dining room. The table decorations were of bridal roses and smilex. A beautiful three tier wedding cake formed the centerpiece. After the feast, the bride and groom, amid good wishes and showers of confetti, left for Banff for a few days. Mr. and Mrs. Shouldice will be at home at their farm, near Vulcan, about the fifteenth of the month. Following are a list of guests who were present at the ceremony: Mr. and Mrs. Wm. Hill Long Beach; Mr. and Mrs. W. S. Hill, Vulcan; Mr. and Mrs. R. E. Hill, Vulcan; Misses Marjorie, Eleanor and Eileen Hill, Vulcan; Dr. and Mrs. Bryant, Lethbridge; Rev. and Mrs. Verne Gilbert Springbank; Mrs. Jas. Shouldice, Calgary; Mr. and Mrs. F. L. Shouldice, Calgary; Mrs. Murdoch McKay Fort William; Mr. Harry Shouldice, Calgary; Mr. and Mrs. Fred Brown, Calgary.

LOCAL ITEMS

Mr. Roy Walker has a large number of raspberry bushes that he will be pleased to give free to all who might desire same while they last.

Mr. and Mrs. R. E. House are moving into town from the country. We understand that Mr. House will be employed for a period in the office of the C. B. Shimp land company.

Vulcan Women's Institute will be represented at the annual provincial convention in Edmonton, to be held in the last week of May, by Mrs. George McMahon, who is in the meantime visiting with friends at Red Deer.

The citizens of Brant will hold their annual sports day on Wednesday, June 10, when a baseball tournament will be staged. This annual affair at Brant is always a great success and this year should prove better than former events.

Mr. Kemp, of St. John's College, Manitoba University, has arrived to take charge of the Church of England in Vulcan and Carmangay, while Rev. C. R. Daniels is on vacation in England. Services will be held fortnightly in Vulcan, commencing May 24th.

The municipal authorities have erected a fine and high new flag pole at the recreation grounds, and one of the new nine-foot Union Jacks will be run up on the staff for the first time on Victoria Day. The other big new flag will go up at the playground park.

Mr. Les Middleton is suffering to the extent of a broken shoulder, the result of an auto accident. Early one morning when driving down the road from one part of the farm to another, something hitched in the steering gear, the car switched into a low place and over it went. Mr. Middleton was caught between the ground and the car in such a manner as to produce the fracture. There were two others in the car who escaped uninjured.

Mr. C. D. Woodcock, who has now become quite generally known in Vulcan as the sales man, is in town to put on the sale of the Spooner stock, and when he comes everybody knows about it. He is a great advertiser, and a generous patron of the printer, two qualifications that make him the success as a sales man. Mrs. Woodcock came along and they are taking pleasure also out of the trip by attending the events in the town and district.

The interest of property owners can well be extended beyond the lines of the premises, and the enterprise of Mr. Rube Elves and Mr. Frank Clark is commendable, for they have taken care of the boulevard in front of their homes. In this connection we might again direct attention to the recent admonition of Mayor Butchart, who requested that care be taken not to in any way injure or impede the progress of the trees which just now are giving such beauty to our streets.

The Advocate has been furnished with details in connection with the funeral of the late George Staples, except that the body was entered at Vancouver and the funeral was in charge of the G.W.V.A. The only close personal acquaintance of the deceased in attendance was Mr. Fred Elves, who displayed real spirit of the place which both were not so long ago fellow-townsmen. Not very much is known of the family or personal affairs of the deceased, but it is understood that a son and daughter reside in London, England.

Mr. Peter McAskile is the purchaser of the A. G. Spooner store premises and clothing business, which big transaction had brief mention last week. This deal involves a considerable sum of money and creates a very decided change in a business way in town, the name of Spooner being so long associated with a well established and widely known concern. Mr. McAskile is trained and experienced in the clothing line, comes well recommended as a good mixer, merchant and a man. May his deal prove as good to him as it looks to everybody.

The Advocate man asked Mr. "Barney" Lommatzsch how he was getting along with his stubble burner, and got the answer that it was doing fine, and licking up the stubble faster than several outfits can follow and cultivate the land. This is a machine comparatively new to the district and has commanded much attention, and it so happens that the first operation of this very machine was the subject of a picture in the movies. Councillor Alex. Smith possesses a machine just like it, and it is likewise giving satisfactory service.

LOCAL ITEMS

Mr. J. Kerr, who has been for some time accountant at the Hamilton branch of the Bank of Commerce, will be transferred to Medicine Hat.

The erection of the new residence for Mr. R. E. Dadds is progressing rapidly, and already the frame suggests good size and splendid design.

Mr. W. B. Benn and Miss Christina McIntyre are this week visiting the schools in Vulcan and vicinity. Their business is the promoting of school fairs and the improvement of organized fairs.

We are pleased to see W. C. Hopper formerly of the Claresholm School of Agriculture, now occupies the position of Field Husbandman at the Experimental Farm at Ottawa in which position we know he will make good.

Mr. Percy Orton left last week for the Old Country. On the eve of his departure he was presented by Mr. Maher, on behalf of a number of the members of St. Aldhelm's church, with a small gold souvenir as an appreciation of the valuable services he had given in the interests of the church during the time he had resided here.

Workmen are making an entrance from the street to the dining room at the Imperial Hotel just another of the conveniences which are continually being added for the patrons of this popular hotel. And in this connection it can be mentioned that Mr. James Ross the new manager, is getting along fine and already is convinced that he came to one of the best little towns in Alberta.

"Vulcan Garage & Machine Shop" is the new sign which now indicates the new name of an old business, where Mr. Guy Denbigh directs the operations of an efficient staff who labor with an equipment which has every now and then been enlarged and improved, giving to Vulcan and district a machine service unequalled outside of the cities. The sign that is mentioned is the largest sign in town.

Every rider for two hundred miles has been invited to attend the big stampede at the O.L. McPherson farm on June 3rd, and bills and stickers carry the information to the people throughout the land. Preparations for the event are being made by an active and optimistic management, and there is every promise of a great success. Bucking and riding produces the thrill that entertains the multitude.

Mr. L. A. Wright has this week received his appointment from Toronto as manager of the local branch of the Canadian Bank of Commerce together with Mr. F. J. Stewart, and from 1st June the business will be conducted in Bank of Commerce building under the joint management of Mr. Wright and Mr. Stewart. We are pleased that both the present managers will remain with us to carry on the banking business here, which has been so ably conducted in the past by these two men.

Keeping pace with the general fix-up idea which prevails to a great extent this year in Vulcan, the council has authorized repairs to things about the recreation park, and the first to show improvement is the ticket office at the entrances. The stands and bleachers will no doubt receive attention and the track will be put in better shape for the Dominion Day celebration. The baseball boys are getting the diamond in trim, and the big score board will be removed to a better location. The basketball area has been differently located and other things have been accomplished, all for improvement.

Baseball in Vulcan is not just as good generally as it is going to be. However, the boys are certainly working out consistently, and when everything is in good running order, as it is expected to be on May 25th against Champion, Vulcan will have a team which will enthrall the fans. The fact is that there is already a gratifying interest on the part of the people, which was to a degree manifest at a game on Monday night with Red Cross. These boys are our neighbors, and friends, and they sure have a splendid team. They made and maintained a considerable lead in the score up to the seventh inning, when Vulcan drew even. And the last man up in the ninth for Vulcan made a hit that made the score seven to six in favor of the town bunch. Ed Kehr went fine in the box for Red Cross for six frames, and was followed by Willard Love in the eighth. Bloom went six in the box for Vulcan, and was followed by Packwood. It was the first game this year for Red Cross, and they turned in a splendid performance, as also did Vulcan, there being some very good plays, and some not so good. So many have said that the pick of the two teams would make a nine hard to beat. The game was valuable as practice, as both teams will be required to get down to business right away. Red Cross playing a league fixture with Ensign here this Saturday, and Vulcan go against Champion on the 25th. Both games are to be played in Vulcan and are being anticipated with much interest locally.

LOCAL ITEMS

To the paint-on-honor roll we are pleased to add this week the names of Messrs. A. J. Flood and F. L. Simington, painters having been employed on their residences.

The telephone staff, always keeping things neat and attractive about the exchange premises, have exceeded themselves this season, and now they have put up a pole on the place and will fly a "A.G.T." flag, and a Union

This is a capital idea. During the period of the "mirthquake" Miss Rinehart will provide a nursery service at the Vulcan hospital, where baby will be properly cared for at a reasonable charge while pa and ma take in the games and have a real time of it.

Mr. W. F. Jennejohn will go East, as the representative of Vulcan Union Church, to attend the great meeting which will mark the consummation of the scheme which will give as a result the United Church of Canada. Mrs. Jennejohn will go along, and on the way they will visit the places of their former residence in the United States.

The golf club has made the purchase of a horse-drawn mower for use in cutting the grass on the golf course. Credit must be given to this club for the big contribution they make in keeping up the attractive appearance of the recreation park, which surely looks good right now. If they could only manage the club house building proposition it would be fine.

Mr. A. D. McCannell, supervisor of municipal hospital organization, accompanied by Messrs. Larry Dawson and Roy Walker, went to Carmangay on Tuesday to consult municipal officials and prominent citizens in reference to the proposed hospital scheme which has been steadily increasing in local interest, and the subject is now a live one over an extended area.

The construction of the new flour mill under the direction of Mr. James Dewie has been splendidly rapid and the main building has been sufficiently completed to permit of the exterior painting, which has also been completed first coat. The building is of some dimensions, and second in size only to the grain elevators. Mr. Weigh, the owner, is this week away, superintending the shipment of the machinery equipment for the mill. Every moment possible has been utilized in the pushing this project, and the manufacture of flour in Vulcan will very shortly be an accomplished fact.

Mr. John A. Gardiner, who was until some months ago a resident adjoining Vulcan, was up this week from Oregon and brought with him some vegetable products of his farm down there, a portion of which he presented to the Advocate man. Mr. Gardiner came up for his car, which it was impossible to take over the roads at the time he left here last fall. He hurriedly said hello to many friends here and hastened back, leaving the message that his family were all well and happy, but were not yet in the least forgetful of the old town, being content to live in Oregon and weekly to read The Advocate.

The general amalgamation of the Bank of Commerce and Bank of Hamilton, accomplished some time ago, will on the first of June be followed by the merging of the Vulcan branches, under the joint management of two officials, with a staff of at least eleven. This event will necessitate some changes in the personnel of the staff, which are not yet definitely determined, but not so with the managers. The business will now be conducted entirely in the premises which have for so long been occupied by the Bank of Commerce. The work that the change entails has already to some extent been undertaken.

There is nothing new in connection with the Vulcan Oils Limited. The excellence of the speculation continues to be a topic, and the subscription continue to come in rapidly, and the time is about here when the stock will be taken off the market. Mr. Spooner is now devoting his entire time to the interests of the company and the whole organization is being applied to lessening the time when operations will really commence in the field, and with remarkable results. The exact spot has been selected for the well machinery and material is on the way and some has been delivered. Competent drillers have been engaged, and if anticipations are realized the company will perhaps have created a record. This is big business, and to have organized the company await the process of law in the matter, purchase the required equipment, and secure the capital to make the start in such a short period is certainly not less than remarkable, but in part is accounted for by the confidence and optimism of the promoters, which, with the very excellence of every circumstance, has made a ready response from the investor. Every day there are hundreds of people who visit the oil field in the Turner Valley and a large percentage of these at once become investors in the oil proposition, not the least of which is the Vulcan Oils Limited.

THE
VULCAN ADVOCATE
VULCAN, ALBERTA

CANADA'S NATAL DAY

The declaration of Hon. S. P. Tormie, the former Minister of Agriculture, in his speech during the Budget debate that Canadians should celebrate the First of July as thoroughly as citizens of the United States celebrates the Fourth, should be remembered. As a people we fall down lamentably in our outward manifestation of a national spirit. Dominion Day, the anniversary of the Confederation that gives us the present Dominion of Canada, should be a most significant occasion, marked each year by appropriate patriotic exercises throughout the length and breadth of the country. Is it so marked? The answer need not be given since the First of July has become nothing more than a holiday. Thousands of new Canadian citizens know nothing about the anniversary that is being celebrated, and only the newspapers try to enlighten them as to the historic importance of the day. The contrast across the international line on the Fourth is marked. The anniversary is made to stand for something, and is used for a nation-wide patriotic demonstration that makes the people of the United States take a new pride in their country. There is no reason why a similar use should not be made of Dominion Day in Canada. All organizations in town should take cognizance of Hon. Dr. Tormie's statement and ask themselves if there is not something that they can do to bring about a proper celebration of Canada's natal day.

RACE TREASON

Since the bootlegging of liquor into United States is becoming increasingly hazardous and decreasingly profitable, the lawless element, says a despatch from New York, is turning to the bootlegging of below-standard immigrants. It is estimated that 60,000 aliens were thus smuggled into United States during the last six months of 1924. The total profits from this trade, for 1924, are figured at \$30,000,000. It is something to be alarmed about. To smuggle in bootleg liquor is treason to the American constitution and poisonous to a few thousand American stomachs. To smuggle in undesirable aliens is treason to the whole white race and poisonous to the blood stream of this civilization. The drunken man, will either get over it or die. His debauch will wear off. But to pollute the blood stream of a nation with lower alien strains is to debauch the whole life of that nation and to mark it indelibly with impotency and confusion.

DECIDES TO PROSECUTE

The Dominion government has decided to prosecute the alleged fruit combine charged with criminal actions by Commissioner Lewis Duncan in his official report. This will come as well-known news to British Columbia growers who have suffered so much at the hands of middlemen in past years. On the success or failure of the crown's case will largely depend the future of fruit growing in this province. Success will give new strength and hope to those who have been so severely abused; failure would make the status of the industry uncertain. Important as is the need of prosecuting the alleged combine, it is of even greater importance that the government should pass legislation at the present session of the House to make it impossible for any firm to act in the dual role of jobber and broker.

The Supreme Court has decided that bootleggers need not pay income tax; that the act does not apply to dishonest gains. Illegitimate ventures escape while legitimate undertakings pay. Another example of how business is bearing the burden of taxation.

MIND YOUR OWN BUSINESS

Nobody likes to be told to mind his own business. Yet there was never a time when people needed to be told that more than now, because nine out of every ten men and women are not minding their own business. They do not seem to know that public business is their business. Whose business is it that the country is spending far beyond its means and borrowing tens of millions every year to do it? Surely it is the business of those whose earnings pay the interest on the money borrowed; and that again means you. You are paying it every day in high rents and high prices. The credit of our Country and our City is not a thing apart from ourselves. They have credit only because they can pledge our property as security for the money they borrow, and tax our earnings to pay interest on it. If we had been minding our own business, the debts of the Dominion, the Province would not be so high. When we do not mind our business we always suffer for it.

"TIN CAN TOURISTS"

With "their household goods piled high on the little car, their children tucked in unbelievably small places, and the dog riding jocularly on the running board," innumerable penniless invaders are swarming into the Golden State of California. Their capital, we are told, "consists of a dirty dollar bill and a dirty shirt, and they have no intention of changing either." To California's dismay, "the light of conquest shines in their eyes." They "expect to pick golden oranges from convenient groves and to find the acquisition of gold as easy."

General Ludendorff in his book of the war on "Truth about Kitchener" says the Russians gave all information away to the Germans as to the ship he would leave England on and when.

The next great war will be between man and insect life, is the opinion of the Federal Minister of Agriculture, who asked for a grant of \$375,000 to cover the cost of administration of the destructive insect and pest act and buildings.

Elwood Haynes, who died the other day at his home in Kokomo, will be remembered as "the inventor, designer and builder of America's first mechanically successful automobile," and it reminds us, it was on July 4, 1894, that he towed a queer-looking buggy without tongue or shafts out from his shop in the city to a country road and drove it back to the city without a horse, to the astonishment of the natives, at the speed of seven miles an hour.

Twelve hundred automobile manufacturing concerns have become extinct during the past quarter of a century, and a company in Detroit that makes a business of liquidating such failures has had fully nine hundred pass through its hands. Most of these companies were pioneers in the new mode of transportation which relegated the horse and surrey to the discard, and they were the natural casualties which befall the development of any new industry.

The progress made by Manitoba, Saskatchewan and Alberta during the past twenty years in the way of natural resource development is outlined in an interesting manner in a recent publication "Natural Resources of the Prairie Provinces" issued under the direction of the Honourable Charles Stewart, Minister of the Interior. The data include outstanding facts with regard to forest, mineral, water power, fishery and fur resources, presented in concise form, by means of a number of maps and diagrams. The chapter devoted to fur and game resources contains particulars regarding the open and closed seasons, while a synopsis of the Dominion lands, grazing, irrigation, water power, mining and timber berth regulation has been included, for the convenience of those interested in such matters. The publication will be found useful by the intending settler, the investor, prospector, hunter, in fact anyone interested in Western Canada's past development and present opportunities. A copy may be obtained free of charge by adults, upon application to the Natural Resources Intelligence Service of the Department of the Interior, at Ottawa.

WHEN CANADA FEEDS THE U. S.

Although Canadian farmers and the Canadian agricultural industry are now restrained by tariffs from securing the benefits of the American market for their products, there are indications that, with the continued growth of population in that country, this will not long be so. Economists foresee the time when the United States will, with a continuation of present trend of developments, cease to be a food exporting country and will require to import supplies to feed her people. In the Saturday Evening Post, Elmer T. Peterson presents this interesting forecast:

In 1880 the population of the United States was 50,155,783 and 28.6 per cent was urban. In 1910 the population was 91,972,266, and 45.8 per cent was urban. In 1920 the population was 105,710,620 and 51.4 per cent was urban.

According to a statement made by L. C. Gray, economist in charge of the Division of Land Economics, United States Department of Agriculture, in 1923 the population will be about 150,000,000 in 1950. It is not likely, he says, we will expand our crop acreage sufficiently to provide for such a large population without encroaching upon the 50,000,000 acres now employed in producing for export.

"It should be noted," he said, "that for the past twenty years we have been reducing our crop and pasture acreage per capita. This reduction reflects the fact that our area of virgin land available for the easy expansion of our agriculture has been exhausted."

Land is getting higher and higher priced. In 1880 the average value in land and buildings per acre of farm was \$19.02. In 1910 it was \$39.60 and in 1920 it was \$69.38.

As the population of the United States continues to grow and as farm values continue to advance, it seems inevitable that the American market must be opened to Canadian products as a solution of the problem of the cost of living for the fast increasing urban masses in that country. Canadian agriculture should then enter an era of marked prosperity. Naturally a market on this continent is economically an attractive proposition for our exportable surplus as compared with Europe, in view of the high cost of transportation. And not only that, but our costs of production in Canada should continue on a relatively attractive basis even though land values do increase relatively in keeping with prices prevailing on the other side of the line. Increased immigration to take advantage of this prosperous agricultural situation will be a logical development.

Children may be a nuisance at times but they come in handy when the income tax returns have to be filled up.

Work hard and save your money and when you are old you can have the things only young people can enjoy.—Columbia Record.

An Alberta farmer's wife says that farmers "plow and sow in hope, live in faith, and market by accident." Her description of the situation seems apt.

Alberta annually secures some \$800,000 from the sale of motor car licenses. In addition to this there is a gasoline tax of 2 cents per gallon which brings in a revenue of over \$250,000.

The first inter-provincial school to be established in the West will be opened at Lloydminster, which town is directly on the border line between Alberta and Saskatchewan. The two provinces will jointly contribute to the support of the school.

ADDRESS—VULCAN, ALBERTA

THE SILVER LINING

The benevolent old lady was about to drop her usual coin in the hat of the blind beggar at the corner. "You don't seem to be the same man who sits here always," she remarked. "No lady, he's my brother." "I hope your brother is not ill," she went on. "Oh, no, mum," was the unexpected answer. "He's taken an afternoon off an' gone to the movies."—Boston Transcript.

A bishop was eating dinner with his host before the afternoon service at which he was to speak. He ate little or nothing, explaining that it was not good for a preacher to eat heavily before a sermon. The housewife could not attend the service, as she had to stay at home and prepare supper, when her husband came home, she said, "Well, how was he?" The husband, drawing a sigh, replied, "He might just as well of 'et."—Christian Evangelist.

There are now 32,000 farmers in the Alberta Wheat Pool, according to a statement made by a director of the pool last week.

FORD CARS

Why let luxury that you do not need, size that you do not want, speed that you cannot lawfully use, lead you into buying a car?

NEWS OF THE POOL

As the time approaches for the drive for memberships for the new provincial dairy, livestock and poultry pools, which is to be held June 8th to 28th, the organization work is speeding up, and the various factors for the drive brought into co-ordination. Large posters, advertising the drive and the benefits of co-operative marketing, are now being circulated throughout the province, and it is the intention to have the posters placed in all conspicuous places. The advertising campaign throughout the rural press has commenced, and has stimulated interest in the campaign. There will be over 500 meetings held throughout the province in connection with the drive for memberships. The organization of these meetings is now under way, and they will start June 8th, simultaneously with the drive. It is hoped to have several important outside speakers for the meetings, as well as local speakers. Support for the new pools is coming from all quarters. The directors of the wheat pool have tendered their wholehearted support and have designated W. H. Boyle, their Edmonton representative to assist the organization committee of the pools in whatever way possible.

So keen is the interest in the organization of these new pools, that other provinces are seeking information. The livestock pool committee of Saskatchewan will pay a visit to the province on June 1st, for the purpose of making a survey of the situation here with respect to co-operative marketing, and will have a conference with the directors of the pools on that date.

REDUCE RATES

The Canadian Pacific Railway announces a readjustment in the freight rate on double deck hog shipments to Tacoma, Seattle and Portland. The new rate is \$204, as against the rate of \$246 objected to as strenuously by shippers and public bodies. The new rate goes into effect June 15. The new rate pleases livestock men, who state that it means the early reopening of the west coast market for Southern Alberta hogs. "The C.P.R. has dealt very fairly with this matter. The rate has been equalized and that is all the producers and shippers could ask for. The rate is a good one and will mean that we will be able to again put our finished hogs into the west coast cities a market we have found to be slightly higher than the Canadian markets," one shipper stated. In connection with the appeal made to the C.P.R. against the \$246 per car rate on hogs, which paralyzed the trade with the coast, the shippers, Board of Trade and other organizations took up the matter in a vigorous way. The government was appealed to, also L. H. Jelliff, M.P., who personally pressed for an adjustment with the freight officials of the C.P.R. at Montreal. Advice received brought jubilation in the livestock circles for it means another market for the surplus livestock of this section of the country and a decided stimulus to the stockyard industry here. The coast buyers are expected back as soon as the new rate goes into effect.

"How is your garden coming along?" "Why do you ask that question?" demanded the other half of the sketch. "Merely out of politeness." "Glad to hear it. I thought maybe I had promised you some early vegetables."

INTERESTING ITEMS

A new oil refinery, the third to be established in Alberta, will be opened at Edmonton shortly by the Alberta Refineries, Ltd.

According to word received in Edmonton, a party of Idaho teachers plan to motor to Alberta during June, visiting Lethbridge, Calgary and Edmonton, as well as other points in the West.

Southern Alberta farmers are going in for corn planting on a greater scale than ever this summer. Last year it was estimated that 67,000 acres were in corn. The total will probably reach 100,000 acres this year. Seed corn for 27 plots is being sent out from Lethbridge, and there is expected to be a splendid showing for the corn show which will be held in Lethbridge in November.

According to figures published recently, nearly two million pounds of butter were exported from Vancouver during 1924. The bulk of it went to the Orient. The figures were Japan 538,328 lbs.; China 289,070 lbs.; Hong Kong 20,636 lbs.; Philippines 188,336 lbs.; United Kingdom 767,872 lbs. The bulk of this butter came from Alberta. Alberta's total export of butter by all routes in 1924 was 4,100,000 lbs.

The annual convention of the Alberta Women's Institutes will be held at the University in Edmonton on May 26, 27, 28 and 29. Conference of the advisory board will be held Wednesday morning, May 26, and in the afternoon the advisory board will meet the constituency conveners. Mrs. J. N. Beaubier of Champion, is President of the Convention. The program for the convention includes several prominent speakers.

Attention of the Provincial Department of Agriculture has been drawn to the fact that considerable wheat and oats in northern parts of Alberta are showing poor germination. It is pointed out to farmers that no seed should be sown unless the germinating qualities are known. A pound sample of the seed should be sent to the Dominion Seed Branch, Calgary, for a germination and purity test. The tests cost only 50 cents per sample.

In reducing the freight tariffs on livestock to Tacoma, Seattle, Spokane, and other U. S. Pacific points, the C. P. R. made a move in the right direction which act must be appreciated by farmers and live stock dealers generally. The markets at Seattle, Tacoma and Portland have come to be important markets for our hogs and cattle. They are competitive markets, and they are in the United States, where most of our livestock has been shut out by prohibitive tariffs. Every car of stock sold in those markets serves to relieve other available markets from being glutted. No market is so insignificant these days that special efforts should not be made to get and hold it.

The three new provincial pools, for the co-operative marketing of dairy, livestock and poultry products, are now actively organizing. For the period of the membership drive, which is from June 8 to 28, over 500 meetings have been planned throughout the province.

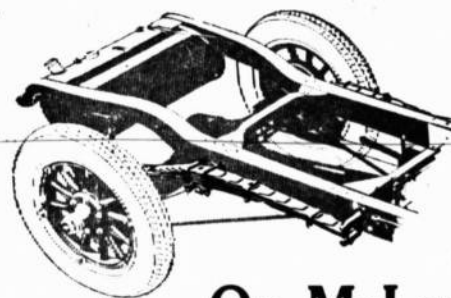

Dr. G. C. Pidgeon is spoken off as the first head of the United Church. The assessment equalization board for the province is now at work, the active members being W. J. Jackman, W. D. Spence, S. Ferris and P. W. Bill-willer of Richdale, who took the place of A. J. Donahoe on the board.

The Municipality of Royal is busy grading the roads in the Brant district. The season of 1924 saw more than 90,000 tourists visit the Rocky Mountain National Park, according to figures recently made public. This was an increase of about 20,000 over the previous year.

Painting and Decorating

EARL CLARK

Announces that his services as a Painter and Decorator are now available to Citizens of Vulcan and Vicinity who recognize the value of good paint properly applied to the premises. Every time you apply a coat of paint to your home, your garage, and other buildings, you are going through an economical venture. You can help your town, and you help yourself, when you join in this splendid enterprise. When you plan to paint permit us the privilege of furnishing an estimate.

On McLaughlin-Buick— Cantilever Rear Springs

FULL Cantilever rear springs absorb the shocks of the road and give maximum riding comfort. The McLaughlin-Buick "Sealed Chassis" with its torque tube drive makes it possible for McLaughlin-Buick to use this type of spring. One of the many reasons McLaughlin-Buick has maintained its position as Canada's Standard Car.

BRANT NEWS

Donald Schultz returned home on Thursday from Olds Agricultural college.

The Cayley boys came over on Saturday afternoon to play the Brant boys a game of baseball and a very good game was played.

Mrs. D. Burwash had a friend down from Calgary to attend the opening of the Community Hall, and who returned on Monday morning.

The Editor of the High River Times accompanied Dr. G. D. Stanley and Miss Holmes, of Calgary, and Mr. V. C. Stanley of High River, to Brant to attend the dedication of the Community Hall.

Miss Joehem, who is attending the Normal School in Calgary, spent the week-end with her friends, Mary and Kathleen McConnell and attended the opening of the community hall on Friday night.

The C. G. I. T. girls are planning on going to the C. G. I. T. camp near High River during the vacation. The girls sold lemonade in the hall on Friday night to help raise funds to defray their camping expenses.

On Tuesday, the 12th, the Brant School ball team motored over to Frankburg to play the school boys there a friendly game of ball. Brant won, the score being 25 to 10. Home runs were knocked by Prater, Larsen and Hobbs of Brant and Roberts of Frankburg. Ray Robbins was umpire. A return game will be played Tuesday, of this week at Brant.

Mrs. D. O. Brown, of High River, started a class in vocal and instrumental music in Brant, on Monday, May 18. She will teach on Friday, beginning May 29th. Mrs. Brown is a high class teacher and Brant is very fortunate to have the services of a teacher of her standing. Anyone wishing instruction should notify Mrs. Hobbs or meet Mrs. Brown on May 29th.

The Ladies' Aid met at the home of Mrs. J. Kelley on Thursday afternoon. There was a good attendance. Two new members joined, Mrs. Ford and Mrs. Deveney. Mrs. Pearson gave a paper on the "Influence of Good Books on the Young." A lively discussion on the subject followed the reading of the paper. The Ladies Aid intend having a play put on soon by the younger members of the community.

The last meeting of the W. I. was held at the home of Mrs. Schultz. There was a large turn-out, when preparation were made for the supper on Friday night. After the business a short program followed. Mrs. Bertrand gave a monologue which was very interesting. Mrs. Hobbs gave a talk on the co-relation of the home and school. The next monthly meeting is at the home of Mrs. Louise Jackson.

This past week was a busy one in Brant. In order to have the Community Hall finished, ready for Friday night, it meant the co-operation of everyone. But they had the satisfaction that everything was in splendid condition for Friday night. Mr. MacNeill, our hardware merchant, put up an aluminum tea kettle to the person guessing nearest to the probable attendance in the hall on the opening night. In order to receive the prize, it was necessary to be present in the hall on Friday night. Mr. Richmond received the prize. The actual number present was 477. A program of high merit was presented, including the following artists: Mrs. D.O. Brown of High River; Miss Laura Holmes, of Calgary; Miss Gilhooly of Vulcan and Mr. Campbell, of Champion; Misses McPhee of Frankburg and Miss Hunterbucker of Brant. Dr. Stanley, of Calgary, was the speaker of the evening and dedicated the hall. He stressed the spirit of co-operation and urged his audience to appreciate Canadianism. Mr. Hatch, Principal of the Brant school made a capable chairman. Unfortunately this splendid program could not be perfectly enjoyed owing to the bustle in the rear end of the hall where people were steadily arriving. The floor is a good one and was in fine shape, consequently the dance was enjoyed by the participants, although the floor was somewhat crowded at times. Supper was served in the basement by the W. I. The tables were loaded with good things to eat. It took about two hours and a half to serve the crowd but the last tables were as attractive as the first.

RED CROSS NEWS

Word has reached Red Cross of the very serious illness of Mrs. Ed. Lane, a former resident, now located at Spring Coulee. An operation of a critical kind was successfully performed, and the hope is that the desired result may be realized.

School fair prize lists have been distributed to the school pupils, and the work for the great event will continue with increased interest and effort.

The Red Cross ball team played at Vulcan on Monday night, their first game of the season, and are satisfied with their showing, it taking the last man up in the ninth to make the hit that scored the one run that beat Red Cross.

James Dewie, who was assisting in the erection of the Vulcan Flour Mill, was in Calgary on Monday where he met the officials of the Union Oil Co., and was engaged to proceed at once with the building of an oil service station at Calgary. This will be the first station established in Alberta and no doubt this wealthy concern, being attracted by the splendid oil possibilities of the Turner Valley field, will establish themselves at various points throughout the province.

The vicissitudes of ball league organization just now has Red Cross guessing. The Arrowwood league, composed of Blackie, Glenview, Ensign and Red Cross, was about set for the season, when Nanton and High River considered applying for admission. They withdrew. The next thing that developed was the announcement that Glenview and Blackie had joined with Nanton and High River in an entirely new organization to be known as the Wheat Belt League. Red Cross and Ensign, always ready to play ball, have made application for a place in this league, but the answer has not come yet, hence the guessing. However, Red Cross and Ensign will keep their engagement at Vulcan on Saturday, and a good game is expected.

EASTWAY NEWS

Mr. and Mrs. M. P. Marshall spent the week-end in High River.

Master James Dick, of High River, is spending a few days with his aunt, Mrs. M. P. Marshall.

Mr. George Reese will hold service in Union Jack School at 11 a.m. on Sunday, May 24, and at 7 p.m. at Buffalo Hill school. Everybody welcome.

The Women's Institute met at the home of Mrs. R. P. Munsey. Seven members were present. After the usual order of business, the afternoon was spent in singing. A delicious lunch was served by the hostess. The next meeting will be held on May 28th at the home of Mrs. T. Webber.

BERRYWATER NEWS

On May 6th, the members of Berrywater U.F.W.A. were entertained by the Buffalo Hill local at the home of Mrs. G. Campbell. All were keenly interested in the school medical report given by Miss Wetherston, the Municipal Nurse, and an excellent paper was read by Mrs. Williams on "Women's Progress." Everyone admired the homemade rugs, exhibited by Mrs. Elsenbise, who also gave a very practical demonstration on the various ways of utilizing rags for rug making. Several games were much enjoyed by the large crowd who were present. A delicious lunch was served and all spent a very enjoyable time.

A well attended meeting of the U. F. W. A. was held at the home of Mrs. Mills on May 13, when many interesting items of business were gone through. Mrs. Noble read a well thought out paper on "Planning for Spring." Mrs. Sims gave a reading, Mrs. O'Neill and Mrs. Mills sang a duet, members exchanged cookie recipes and all joined heartily in the community singing. The hostess served a dainty lunch, and a pleasant afternoon was brought to a close by the singing of a well known chorus, "Till we Meet Again." The next meeting is to be held at the home of Mrs. J. Baden. A paper on "Canadian Authors" is to be given by Miss Calder and a candy making demonstration by Mrs. Baden.

Correspondent asks newspaper physician: "How long before my boy can go out after measles?" "The boy doesn't have to go out after measles. Just get him a seat in school and they will come to him."—Detroit News.

MARQUIS COUNCIL

The third regular meeting of the Council of the M. D. Marquis, No. 157 met at Lake McGregor school house on Saturday, May 2nd, 1925, with the following members of the council present: Reeve Sinclair, Counsellors Campbell, Ward, Dann, Broderick and Norton. Moved by Mr. Sinclair that V. Vancil be given credit on taxes for \$160.00, this being for use of road through Mr. Vancil's land.—Carried.

Moved by Mr. Norton that Mr. Vancil be given credit for portion of land taken by diversion through Sec. 32-20-23, and the amount of compensation to be \$30.00.—Carried.

Moved by Mr. Ward that the blue print in connection with diversion through Sec. 5-19-21-4 be indorsed and returned to Mr. Kelly with the understanding that Mr. Kelly recommend to his company the plan of road through Sec. 6 and 7 in 19-21-4 and that the company bear half the expense of purchasing land for same at such time as the council are prepared to open up this diversion.—Carried.

Moved by Mr. Ward that the Municipal Nurse's residence be moved to Milo and that Mr. Broderick be delegated to look after moving same.—Carried.

Moved by Mr. Ward that Mr. Norton and Mr. Broderick be the Park committee for the current year.—Carried.

Moved by Mr. Norton that Mr. Dann and Mr. Campbell be the cemetery committee for the current year.—Carried.

Moved by Mr. Ward that one culvert be purchased from the Wood Preserving Co., Calgary, the dimensions of same to be 4x6 feet by 18 feet long.—Carried.

Moved by Mr. Campbell that Mr. Ward be authorized to purchase four fresnos.—Carried.

Moved by Mr. Norton that consent be given the Canadian Pacific Railway to close pt. of the road at the east side of Sec. 26 and 35-19-22-4 with the understanding that diversion be opened up through Sec. 26 and 35-19-22-4 leading directly through the proposed townsite of Queenstown.—Carried.

Moved by Mr. Campbell that the Alberta Government Telephones be notified to change telephone line from road between Sec. 26-35-19-22 to new proposed road running through Sec. 26 and 35-19-22.—Carried.

Moved by Mr. Ward that the application of Alex. McKay and Clarence Crum for pool room licence for the hamlet of Shouldice be accepted.—Carried.

Moved by Mr. Campbell that the following estimates for road work be accepted, D. Sinclair, \$1770.00; M. H. Ward \$1175.00; J. Dann, \$1010.00.—Carried.

Moved by Mr. Sinclair that the following bills be paid: A. Benocke, \$12.00; Sawyer Massey \$645.00; Calgary Hospital \$35.00; Cluny Drug store \$12.75; McLean Drug store \$13.15; Municipal News \$37.93; B. F. Mitchell \$20.80; Dr. J. E. Palmer \$100.00; Imperial Hotel \$12.00; Alberta Government telephone \$11.30.—Carried.

Moved by Mr. Ward that the meeting now adjourn to meet again on June 6th, at the hour of 10 o'clock p.m., at Lake McGregor school house.—Carried.

There is talk of a general federal election this year.

Short courses on Bacon Hogs will be held under the auspices of the Dominion Livestock Branch, Provincial Department of Agriculture and the Faculty of Agriculture at the University, at the following places: Didsbury, June 8 and 9; Red Deer, June 10 and 11; Wetaskiwin, June 12 and 13; Camrose, June 15 and 16; Stettler June 17 and 18; Mirror, June 18 and 19.

"Doesn't it strike you that's a queer shaped harp that new woman-angel is lugging around?" asked St. Peter with a perplexed frown. "That isn't a harp that's a radio set," answered Gabriel with a pitying look at his superior. "She's enjoying her husband's howls from Station HLL."—American Legion Weekly.

Considerable activity exists in the Turner Valley. Roylote No. 4 continues to surprise the oil world, the Illinois-Alberta Oil Co., fished out their tools and a flow of oil is reported. Macleod well No. 2 completed erection of derrick, while well No. 1 continues to supply oil in good quantity. Vulcan Oil Co. will soon start drilling operations and on all sides things look very promising in what is said to be the richest oil field on the continent.

DEDICATED HALL

Opening of Brant Community Hall on Friday Evening Last, was Attended by a Throng of People. Enjoyable Event.

The opening ceremony of the Brant Community Hall on Friday evening last was an event of unusual interest, the success of which goes to show the value of co-operation. When the community hall was first mooted among a few of the citizens of town and district, doubt existed as to wisdom of going on with such an ambitious scheme, but with an energetic committee composed of several men of the village and district it was found the people would back the proposition enthusiastically. At the dedication of the building, to be exact, 477 people paid admission into the hall, and the sum of \$797.00 was realized from the sale of tickets, dinner, etc. Liberal contributions were received from various individuals and the balance left unpaid of the original cost \$6000, is small and in a short time this debt will be liquidated from revenues to be received from rentals of the hall. The size of the building is 32x80 with a dancing floor of maple 64x30. The stage is excellently arranged, taking up the space of 16x30 and will be of splendid use to the people when they desire to put on theatrical plays of any sort. There is a full basement, where seating capacity for 80 people at one sitting has been arranged. Here is to be found a complete equipment of ranges, etc., for the giving of dinners and banquets and on this occasion, the culinary department was taxed to the utmost. Mr. Archie Wilson the contractor, is deserving of praise for the substantial building he has erected. The interior and exterior of the building shows excellent care in workmanship and design and is a credit to the builder and those who made it possible to erect the building.

Let every citizen display his colors on May 24 and 25, by flying the national flag on their flag poles.

An Alberta farmer's wife says that farmers "plow and sow in hope, live in faith, and market by accident." Her description of the situation seems apt.

Canon Alexander has received a letter from H.R.H. Princess Mary in which she expresses herself as much interested to hear of the church which is getting built at Pekisko, as a memorial to the men who went from that district and who gave their lives in the war.

Tenders for Building School

Tenders will be received by the Board of Trustees of School District No. 2619, Vulcan, for the erection of a frame school building, as per School Plans A-4-A. Tenders must be in not later than May 25th, 1925. The lowest or any tender will not necessarily be accepted.
MRS. WYLIE,
Secretary-Treasurer.
212 Vulcan.

Public Notice

Notice is hereby given that a petition has been presented to the Council of the Town of Vulcan under the provisions of The Early Closing Act for the passing of the following closing By-Law.
BY-LAW NO. 32
Council of the Town of Vulcan enacts as follows:

1. No person shall carry on any retail trade or business after the hour set forth in the schedule hereto annexed.
From Monday to Friday inclusive of each week, all shops to be closed at 6:00 p.m.

On Saturday of each week, all shops to be closed at 11 p.m.
On Wednesday afternoons after 1 p.m. from January 1st to August 15th.

2. Businesses not affected by this By-Law as follows:—Implement Houses, Livery Stables, Garages, Blacksmith Shops, Tin Shops, Filling Stations, Drug Stores for sale of medicines.

3. Cafes where goods are sold are prohibited from selling anything after the hours mentioned above except refreshments to be consumed on the premises, Tobacco and Smoker's requisites.

4. Any person found guilty of a breach of the provisions of this by-law shall upon conviction before a Justice of the Peace, or other officer having jurisdiction be liable to the penalties provided for by By-Law No. 1 of the Town of Vulcan, being a by-law to provide for the enforcement of the by-laws of the Town of Vulcan.

Notice is hereby further given that objections to the petition presented to the council praying for the passing of such by-law on the ground that such petition is insufficiently signed or otherwise affecting the validity or sufficiency thereof must be filed with the Secretary-Treasurer of the Town on or before the 30th day of May, 1925, and that if no such objections are filed before the said date, the council will forthwith proceed to pass the said closing by-law.

Town of Vulcan,
A. J. FLOOD,
Secretary-Treasurer

MARKET REPORT

A Resume of Market Conditions as Published by Market Examiner

Beef—Prices on the Calgary market lower this week. Choice heavy steers \$7@7.25, with a few real top steers making a little higher; choice light \$7@7.35; good from \$6.25@6.75; medium \$5.25@5.75; common \$3@3.5. Choice heifers \$6.75@7; good \$5@5.6. Choice cows \$5.50@5.75; good \$5@5.25; medium \$4@4.50; common \$3@3.50; canners \$2@2.3. Choice bulls \$2@2.50; good to medium \$1.75@2.25; canners from \$1.25 up. Choice light calves selling at \$10, with others going from \$7 up, while common kinds bring from \$3.50@5. Feeders, Stockers—Offerings of light feeders are practically nil, but they would elk around \$5; stock steers \$3@4.75; stock heifers \$2@3; stock cows \$2.25@3.

Hogs—Prices on the Calgary market have advanced \$1 per cwt. since last Thursday and Wednesday's quotations were \$11.50; 10 per cent premium for bacon.

Sheep—Marketing at Calgary and Edmonton light, but the latter yards handled more than they have for a few weeks; lambs are selling around \$13, wethers \$11, and ewes \$9. Lambing season well under way in most districts.

Grain—Values still moving higher, caused by reports of winter crop yield being under that of last year. Seeding in every district well under way, while a few of the large growers have finished and put in big crops. Oil excitement has taken the place that grain held earlier in the year.

Edmonton creameries have settled their difficulties, and are paying prices same as rest of the province. Receipts picking up, especially along the C.N.R. line to the northeast; some think south is best but north shipped most, is the opinion of the majority. Creamery Butter—Prices are unchanged but the increase in production values might drop; two or three cars shipped from here to the coast every week, while Saskatchewan sends one or two a week, country creameries are expected to have large make. Cheese—Plants in Alberta are all making, and are now able to handle demand without importing.

Eggs—Trading is reported as quiet, with the receipts not as heavy as they have been; nearly all the eggs marketed are going into storage, which means that next fall prices may be high. People not consuming as many as in previous years; large supply in the east and United States. Poultry—Market dull with only a few fathens and staggys roosters being offered; dealers are looking for broilers, but they are hard to get and prices high.

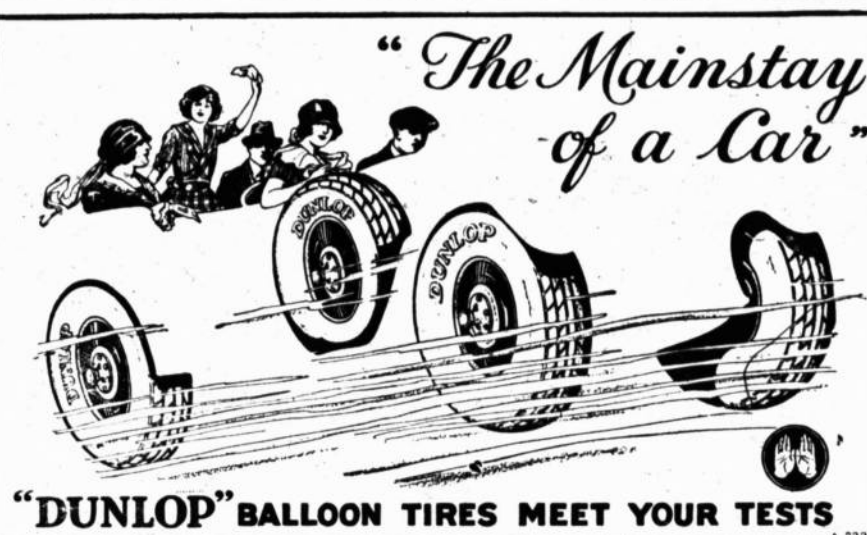

Hay—Good demand for green feed and oats, but both are hard to obtain; supply of hay in country gradually getting smaller; farmers too busy putting in crops to be bothered with loading hay, so some dealers are paying a premium above prices quoted to man who will take time to load his hay ready for shipping. Receipts all within a radius of 15 to 20 miles of Calgary. No reports received on Edmonton prices, but believed to be on same basis as last week.

Potatoes—Demand for seed supply has quieted down, and dealers think that business will be somewhat slow until new crop arrives; eastern spuds still coming on to the market, but prices are not as firm as they were; housewives complaining of color after they have been cooked. Local prices \$30@33, while easterns are selling at \$35 per ton.

CROP REPORT

Issued by Department of Agriculture, Alberta Government.

Seeding of wheat is practically completed throughout the province at this date, save in the territory immediately tributary to Edmonton, which appears to be somewhat later, and where from 50 to 75 per cent. of the wheat is in the ground. A few days more of the present favorable weather will see the completion of wheat seeding in this district. Reports received indicate that the increase in wheat acreage over the province will probably be 10 per cent. Delay in spring operations due to backward weather in the more central and northern districts has led to considerable area of wheat being seeded on stubble, a larger area than usual being put in this way. Seeding of the coarse grains is well under way with from 30 to 50 per cent. completed. The weather generally speaking during the past fortnight has been cool and backward, with frosts in certain localities and growth consequently has been slow. In some of the southern districts early sown wheat is up from two to four inches. Warmer weather has prevailed during the past few days, but there has been no precipitation to speak of in any locality.

ALBERTA

Alberta beef cattle men, has been that the present wasteful and unscientific method of destroying beef cattle following the T.B. test, can be obviated with the use of properly proven vaccine, and have been urging for some time, with the support of the Alberta Department of Agriculture, that research work along these lines be carried on by the Dominion Government. The announcement of the appointment of the special dominion committee by Dr. Tory, therefore, comes as welcome news. The committee is under

the joint chairmanship of Dr. Tory and Dr. Grisdale, of Ottawa, and includes prominent medical and veterinary men from all provinces, with the provincial veterinarian, and Dr. Rankin of the Alberta College of Medicine, representing this province.

A Dr. Scholl Foot Expert

COMING

Come In and Let Him Examine Your Feet and Advise You FREE

If you are tired of being bothered by hurting, tender feet, here is your chance to get immediate relief and permanent correction. You are invited to consult this foot specialist while he is here.

He Will Be Here Thursday and Friday May 28th and 29th

Don't wait until the last minute and, maybe, lose your chance to get foot comfort. Come in any time during business hours and talk it over with the expert.

There is a Dr. Scholl Appliance or Remedy for Every Foot Trouble

There is no need to suffer from any foot trouble, any more. Be it ever so simple or ever so serious this specialist, who is a member of the Staff of Dr. Wm. M. Scholl, the noted foot authority, can show you the way to immediate relief and to ultimate

Foot Comfort

if you'll step in and give him the chance. He can tell just what the cause of your trouble is, and he knows the remedy.

Improve Foot Appearance

No larger sized or oddly shaped shoes needed. Wear the kind you like in perfect comfort. The Dr. Scholl Appliances actually improve the grace and beauty of the feet.
